# CALL BEFORE YOU DIG

NGC's natural gas pipelines are buried safely underground and marked in a variety of ways, making their locations easy to identify. Just look for yellow marker posts or plates, as well as yellow stencilled markers on roadways.

If you intend to

- execute construction activity
- use heavy equipment
- install pipeline, cable, ducting etc.
- install signage, barriers, fences, poles, etc.

or conduct any similar works within **25 feet of NGC's pipeline corridor** and **related facilities**, you must adhere to the following guidelines for your safety.

- A written notice must be given to NGC two (2) weeks prior to proposed activity, including such details as nature of works, sketches and construction drawings as appropriate.
- If the location of works relative to NGC's assets is unclear, kindly notify NGC and we will advise accordingly.

Correspondence should be directed to:

**Mahindra Maharaj**  
Assistant Manager, Right of Way Maintenance Department  
[ROWMaintenance@ngc.co.tt](mailto:ROWMaintenance@ngc.co.tt)

In the event of an emergency, please contact, **NGC's toll free number**  
**800-4GAS**
