

THE NATIONAL GAS COMPANY
OF TRINIDAD AND TOBAGO LIMITED

NGC+ENERGY= A Sustainable Future

Our journey began 46 years ago with a pipeline and a dream.

We took an underutilised resource and created exceptional national value.

NGC is now up to the challenge of transforming our business for the evolving energy landscape.

This means optimising the value of our core business in natural gas while transitioning into the green energy space.

In the next 46 years, NGC will work to realise a vision of sustainability:

-  Prioritising the environment
-  Building on long-standing partnerships
-  Creating socio-economic value
-  Generating a dynamic industry that puts energy and solutions together for the future of Trinidad and Tobago
