# *Celebrating a Caribbean Literary Pioneer*

## **International Women's Forum recognises Marina Salandy-Brown**

NGC is honoured to celebrate Marina Salandy Brown's acknowledgment by the International Women's Forum in the "Ideas Remaking the World" segment of its World Leadership Conference.

It is Marina's passion, creativity and commitment that have allowed The NGC Bocas Lit Fest to be one of the three innovative ideas selected for the IWF's flagship programme, "Ideas Remaking the World".

As the Founder, Vice President and Festival Director of the NGC Bocas Lit Fest, Marina, with her team, has worked passionately to create opportunities for Caribbean writers to share their distinct voices with the world.

The NGC Bocas Lit Fest has set the Caribbean literary scene ablaze, fostering and honing the talent of our writers locally, regionally and for those in the diaspora, creating a treasure trove of material for enthusiastic readers, and sparking the creation of works and ideas with a Caribbean focus but an international scope, thus putting our region on the literary map.

As the 10-year title sponsor of the NGC Bocas Lit Fest, NGC is extremely proud to celebrate and support Marina's exceptional accomplishment and more than pleased to be associated with the legacy of Caribbean literature.

**Congratulations, Marina!**
