NGC advises of continuation of pipeline works along Wrightson Road

04 August 2022

The National Gas Company of Trinidad and Tobago Limited (NGC) would like to remind the public of the planned continuation of works on its project to divert a segment of its existing 16-inch low-pressure pipeline located on Wrightson Road, Port-of-Spain. NGC's 16-inch pipeline project involves upgrading services of low-pressure customers by switching to a higher-pressure pipeline operating system.

The works will continue between Friday 5th August from 7:00 pm to Monday 8th August until 4:00 am.

Dates and times are as follows:

Friday 05th August from7:00 pm to Saturday 06th August, 6:00 pm
Saturday 06th August from 7:00 pm to Sunday 07th August, 6:00 am
Sunday 07th August from 7:00 pm to Monday 08th August, 4:00 am

Works will include installation of the pipeline, pipeline testing and reinstallation of Wrightson Road. Most works will occur on the eastbound lane (exiting Port of Spain). During this period commuters will have partial access to Wrightson Road. There will be some movement of heavy machinery.

A comprehensive traffic management plan will be implemented and the Trinidad and Tobago Police Service (TTPS), will be on hand to assist with traffic management with the following considerations:

- During works on the eastern carriageway of Wrightson Road, police will redirect all outgoing traffic to the western carriageway
- Traffic cones will be utilised to clearly separate the lanes on the carriageways
- There will be advance notice/signs for commuters along Wrightson Road

NGC wishes to assure the public that it will be advised of all project works. Work will continue to be conducted with safety as its highest priority and every effort will be made to minimise inconvenience to the public.
