Attention General Public and Motorists

Pipeline works at Beetham Highway and Natural Gas Flaring

The National Gas Company of Trinidad and Tobago Limited (NGC) would like to advise the public of the planned continuation of construction works on Phase 3 of its project to divert a segment of its existing 16-inch low-pressure pipeline located at Beetham Highway. NGC's 16-inch pipeline project involves upgrading services of low-pressure customers by switching to a higher-pressure pipeline operating system.

Schedule of Works

Start: Saturday 3rd December 2022 at 6:00 am
End: Saturday 3rd December 2022 at 2:00 pm

Activity 1

A hot tap on the 16-inch line: this will take place approximately 0.7 km after the Beetham Overpass, heading in an easterly direction, along the Beetham Highway.

Activity 2

Flaring of natural gas: this will involve decommissioning of the 16-inch natural gas pipeline at the NGC Valve Station, Barataria. During these works, there will be the controlled venting of small amounts of natural gas, which will not impact the safety of the public.

Periodic hissing sounds may be heard and may be accompanied by a pungent mercaptan odour.

NGC assures the public that this presents no danger. NGC's personnel will supervise all works. The Trinidad and Tobago Fire Services will be on site to provide support during this operation.

A comprehensive traffic management plan will be implemented and the Trinidad and Tobago Police Service (TTPS) will be on hand to assist with traffic management.

All works will be conducted in accordance with NGC's Environment, Safety and Security Policies and Procedures, as well as all applicable codes and standards.

Should you have any concerns, please contact:

NGC's 24-HOUR EMERGENCY HOTLINE: 800-4427 (800-4GAS).
