Attention General Public

Pipeline Hot Tap Works at Charlieville

The National Gas Company of Trinidad and Tobago Limited (NGC) advises the public of its hot tap works on its 16-inch pipeline, which will be conducted off Connector Road, Charlieville.

This activity involves the following:

1. Setting up of the equipment on a split tee fitting
2. Attaching a valve
3. Attaching the hot tap machine to the valve

Hot tapping is a process used to attach a branch connection to a pipeline without needing to depressurize or disrupt normal operations. It is also used to isolate sections of pipe for maintenance by plugging or stopping the line.

For this activity, the hot tap will be made in one continuous process and will result in the removal of a section of pipe.

SCHEDULE OF WORKS

Start: Saturday 15th April 2023

End: Sunday 16th April 2023

**THESE ACTIVITIES ARE SCHEDULED TO TAKE PLACE
BETWEEN THE HOURS OF 7:00 A.M. AND 5:00 P.M.**

All works will be supervised by NGC personnel. The Trinidad and Tobago Fire Services will be on site to provide support during these operations.

These activities will be conducted in accordance with NGC's Environment, Safety and Security Policies and Procedures, as well as all applicable codes and standards.

Should you have any concerns about this project, please contact:

NGC's Control Room at 800-4GAS (4427).
