Works on NGC's TGU Alternative Gas Supply Station (TAGSS) Project

The National Gas Company of Trinidad and Tobago Limited (NGC) advises that it will commence the following activities on its TAGSS Project, located at Picton Road, Debe.

FLARING

HOT TAPPING

COMMISSIONING OF NGC'S 24-INCH PIPELINE

Works include, but are not limited to:

- Pigging and hydrotesting of the pipeline
- Flaring in a controlled manner via flare stack
- Commissioning (introduction of hydrocarbons) into the pipeline

These works will be carried out in phases. Details of the planned activities are as follows:

Scheduled start: Friday 2nd June 2023

Scheduled end: Friday 16th June 2023

**THESE ACTIVITIES ARE SCHEDULED TO TAKE PLACE
BETWEEN THE HOURS OF 7:00 A.M. AND 7:00 P.M.**

All works will be supervised by NGC personnel and conducted in accordance with NGC's Environment, Safety and Security Policies and Procedures, as well as all applicable codes and standards. As part of our stringent safety protocols, the Trinidad and Tobago Fire Services (TTFS) will be on site to provide support during these operations.

Should you have any concerns, please contact:

NGC's 24-HOUR EMERGENCY HOTLINE: 800-4427 (800-4GAS).
