Pipeline works at Beetham Highway

The National Gas Company of Trinidad and Tobago Limited (NGC) will commence activities for the introduction of nitrogen into its 16-inch low-pressure pipeline, located at Beetham Highway. It will also conduct flaring at City Gate Valve Station, Morvant Junction.

Works include, but will not be limited to the following:

Beetham Highway

- Excavation on the eastbound lane
- Injection of nitrogen into the pipeline
- Backfilling

City Gate Valve Station, Morvant Junction

- Flaring in a controlled manner via flare stack

Details of the planned activities are as follows:

Scheduled start: Saturday 9th December 2023

Scheduled end: Saturday 9th December 2023

Hours of Work: 7:00 a.m. to 7:00 p.m.

During these works, periodic hissing sounds during flaring may be heard. This represents no danger to the public. NGC's personnel will supervise all works and these will be conducted in accordance with NGC's Environment, Safety and Security Policies and Procedures, as well as all applicable codes and standards.

As part of our stringent safety protocols, the Trinidad and Tobago Police Service (TTPS) and the Trinidad and Tobago Fire Services (TTFS) will be on site to provide support during these operations.

Should you have any concerns about this project, please contact:
