

ATTENTION GENERAL PUBLIC

TUMPUNA ROAD (NORTH) CNG STATION PROJECT

The National Gas Company of Trinidad and Tobago Limited (NGC) will soon commence construction of a natural gas pipeline to the Tumpuna Road (North) CNG Station compound, located at the junction of Tumpuna Road and Churchill Roosevelt Highway. The pipeline will begin from NGC's existing Ø75mm (3") gas line in the vicinity of the NGC Right of Way along the Churchill Roosevelt Highway reserve, and run north for approximately 34m, then into the Tumpuna Road (North) CNG Station compound in Tumpuna.

The works comprise the laying of the pipeline by **"Open Cut"** construction method. There will be no disruption to the road surface and to the traffic flow.

Details of the planned construction activity are as follows:

Duration of Works:	48 calendar days
Commencement Date:	27th July, 2015
Days of Work:	Monday to Friday
Hours of Work:	7:00am to 5:00pm

NGC is asking all motorists and pedestrians to exercise caution when in the vicinity of the works. Police officers and traffic wardens will be on hand to manage the flow of traffic.

NGC assures the public that all operations will be conducted with the public's safety as its highest priority and every effort will be made to minimize any inconvenience.

If you have any concerns during this activity, please contact:
